Primary Markets

Velpi Pharma Logistics prepares exports of pharmaceutical products, cosmetics and medical devices globally.

Velpi Pharma Logistics is a logistics company focused on pharmaceutical warehousing. Years of expertise combined with innovative spirit have made it a customer driven competitive company with loyal customers in the field of pharmaceuticals, cosmetics and medical devices.

In order to provide its customers complete supply chain services undertaking the international transport of goods, storage, management, full packaging and finally distribution to the final recipients.

Location Advantage

Velpi Pharma Logistics' premises are in a privileged location with an easy access to the Athen's International Airport, as well as the port and custom office of Lavrio. In addition the distance among our premises and the port of Piraeus is eliminated through Attiki Odos.

Core Values

- We are a relationship based company
Our first core value is also a fundamental business strategy. We focus on forging strong, long-term business relationships. We cement these relationships by providing superior value and quality to our customers and by continuously improving our performance.
- Growth is an imperative
Our customers needs drive our business, so we grow in pace with their growth. Indeed to compete in the marketplace, demands growth.
- People are our greatest asset
Employees are the backbone of every company. Talented, well trained, with expertise and capabilities make a solid backbone holding the companies values, strategy and vision together. Our environment is flexible to change and open to innovation, making it an exciting work environment for our employees.
